

PLOUGMANN VINGTOFT®

tto

A part of Plougmann Vingtoft

A 3D printed part with a perforated surface is shown in a blue-tinted environment. Red and green laser lines are projected onto the part, highlighting its geometry. The part is mounted on a mechanical assembly with various components and a scale visible on the left side.

# Who is tto/PV?

tto specializes in building value from new technologies and intellectual property rights (IPR).

In addition to supporting our university clients' technology transfer and commercialization activities, we help protect and enforce their IP rights. We can provide this service as part of Plougmann Vingtoft - one of Scandinavia's leading IP consulting firms.

Together tto/PV employ 34 dedicated and highly specialized consultants, including 16 examined European patent attorneys and an equal number of experienced paralegals. This means that we can handpick the best team to suit our clients and their individual needs.

## Some of our IP and commercialization experts

### **Jon Wulff Petersen**

Director, Technology Transfer  
MSc Physics, PhD Semiconductor Physics

T +45 33 63 95 20

M +45 20 48 25 62

# A top choice for IP and technology transfer...

We have more than **40 years of experience** in assisting universities in protecting and commercializing their inventions.

It is our mission to strengthen our university clients' technology transfer activities thus making them more attractive to their partners. We focus on delivering resource-efficient advice for our clients.

Over the years, our team of consultants have worked with hundreds of projects for more than 25 universities in Europe.

For more information about our university services, please visit our website: [tto.eu](http://tto.eu) or [pv.eu/clients/universities](http://pv.eu/clients/universities)

# Our combined IP and commercialization services helps you all the way

We assist university clients with all services related to their IPR, including novelty searches, drafting, filing, and prosecution of patent applications, as well as with strategic advice and freedom-to operate analyses.

Our consultants have solid experience with tendering processes in several countries, but also work on a project-by-project basis.

In addition, we offer unique services related to tools and systems for operating tech transfer offices, including portfolio management systems.

Our services are also tailored to specific technologies, and for example we assist you with: assessment of invention disclosures, developing commercialization strategies; identifying and contacting partners, as well as facilitating deal making.
